

Filling

Mayer - TM 2432

The Large Pot Potting Machine

BENEFITS:

- Potting machine with a wide range of uses, especially suitable for tree nurseries
- Smooth movement of the turntable even at top production rates
- Perfectly centered planting holes for top plant quality
- Great range of pot sizes and types can be used (round and square pots, pots for roses)
- Can be used with standard, special, and container drills
- Flexible arrangement of the conveyor belt for adaptation to different working environments
- Compatible with all popular automation and transplanting systems
- High safety standard (e.g. 3 emergency OFF switches).

Mayer's TM 2432 has a wide range of uses. It can process pot and containers with the diameters of 3 1/2" - 12 1/2" (9 - 32cm). This is especially useful to nurseries and others who require such versatility.

The 14-piece turntable and elevator are remotely controlled. Depending on your needs you can also frequency-control many of the other features such as: the drill motor, elevator and turntable stop and the soil control on the elevator.

Key Features:

- The original Mayer circular system for maximum ergonomics at work
- 2-speed drill motor for drills up to 7 1/2" (19 cm) (standard)
- Electronic precision control of machine output by means of a frequency converter for elevator and turntable drive
- Turntable stop, adjustable elevator to handle slower bare root potting (optional)
- Frequency-controlled drill motor (optional)
- Soil hopper with large filling volume (optional)
- Segmented soil chute for exact dosage of additional soil on turntable
- Fast central adjustment of pot sizes by means of a ratchet (standard).

Technical Specifications:

Output	Up to 3,000 pots/hr	
Pot Size	3 1/2" - 12 1/2"	9 - 32 cm
Soil Hopper (Extended)	1.96 yards ³	1,500 liters
Soil Hopper Extention	2.88 / 3.92 / 6.54 yards ³	2,200 / 3,000 / 5,000 liters
Transport Dimentions	15' - 1" x 7' - 2" x 7' - 6"	4.6 x 2.2 x 2.3 m
Weight	3,748 lb	1,700 kg
Accessories	Rotating brush, Fertilizer dispenser, Pot dispenser with storage belt, Double stack pot dispenser, Soil hopper extensions, stainless steel chains, special tires, Additional frequency converters, Soil control on the elevator.	

With over 20 years in the horticulture business, Bellpark Horticulture is a trusted name in Horticultural Automation Solutions. Serving growers in Canada and the United States, the Bellpark team strives to provide customers with the highest quality solutions.

Our sales and project consultants realize that each grower is different and that each project requires a personal level of attention to detail to ensure its success.

Our service team is committed to offering our customers the highest level of service with the quickest response time. With a dedicated parts and service department, our factory-trained technicians are available when you need them.

■ mayer

Since 1967 Mayer has been setting new standards in the green sector with their leading innovative automation solutions for ornamental plants and tree nurseries. They develop, produce and sell quality automation solutions for substrate preparation and for filling pots and trays.
