

Filling

Visser - VTF Template Filler

Clean & uniform tray filling

BENEFITS:

- Clean filling
- No wasting of soil
- Capacity of 750 trays/hour
- Easy adjustments for soil compactness
- By changing the template it is very easy to change to a different tray size
- Easily integrated into a new or existing production system

The Visser VTF Template Filler is a unique template-based filling machine which gives you a nice and clean filling result.

By using a template that matches the tray format, the soil ends up in the pot or the cell of the tray. There is no soil spillage during the filling process.

The trays are collected on a conveyor belt which is pushed upwards to the template to avoid any spillage. An integrated brush, which is mounted on the filling head cleans the top of the pot. By changing the number of filling cycles the soil compactness can easily be changed.

Accessories

- Extra filling template.
- Brush unit for cleaning the top of the tray.

Technical Specifications:

| | | |
|--------------------------|---|--------------------|
| Dimensions | 9'-2" x 5'-4" x 7'-2" | 2.8 x 1.64 x 2.2 m |
| Max. template dimensions | 37" X 24" X 8" | 95 x 60 x 20 cm |
| Total air consumption | 4 CFM | 150 liters/minute |
| Soil Hopper Capacity | 1.3 yards ³ | 1,000 liters |
| Capacity Guidelines | Output of 750 trays per hour (based on a tray size of 12" x 21") can be achieved depending on: the tray size, soil compactness and filling machine length | |
| Total kVa | 6.9 kVa | |

With over 20 years in the horticulture business, Bellpark Horticulture is a trusted name in Horticultural Automation Solutions. Serving growers in Canada and the United States, the Bellpark team strives to provide customers with the highest quality solutions.

Our sales and project consultants realize that each grower is different and that each project requires a personal level of attention to detail to ensure its success.

Our service team is committed to offering our customers the highest level of service with the quickest response time. With a dedicated parts and service department, our factory-trained technicians are available when you need them.

Since 1967, Visser Horti Systems has designed and manufactured machines and complete production lines for both large and small horticulture nurseries. They are dedicated to producing innovative, quality greenhouse machinery.
